**BRING LIVER
DISEASE
MANAGEMENT
TO A NEXT
LEVEL**

- ◎ **New spleen stiffness measurement and embedded ultrasound guidance system for risk stratification of patients with advanced chronic liver disease.**
- ◎ **Enhanced ergonomics and advanced features for optimized exam efficiency.**

eechosens[™]

FibroScan[®] is a class IIa medical device according to Directive EEC/93/42 and is manufactured by Echosens[™] (FibroScan[®] 630 Expert: CE mark in progress). This device is designed to be used in a physician's office to measure the stiffness and ultrasonic attenuation of the liver in patients with liver disease. It is expressly recommended to carefully read the guidance and instruction of the users' guide and labeling of the device. Results obtained must be interpreted by a physician experienced in dealing with liver disease, taking into account the complete medical record of the patients. This marketing material is not intended for French and US audience. ISO 13485 - Echosens[™], FibroScan[®], are trademarks of Echosens[™] Company. © Copyright Echosens[™] all rights reserved - 02/2019
